PURCHASE & SETUP CHECKLIST

What to buy. What to set up. What can wait.

Use this list for your rental business. Start with what you already have and add only what you need. Not every item applies to every location, team or budget.

HOW TO USE

- 1 Check a box when the item is available, set up or tested and ready to use.
- 2 Cross out anything that does not apply. For grouped items, check only when all applicable parts are ready.
- 3 Use the notes column for quantities, prices or details. There is no second list to complete.

BEFORE OPENING	Start here for the items that apply to your business.
ADD AS YOU GROW	Add when workload, storage or staffing makes them useful.
OPTIONAL LATER	Choose only if the upgrade meets a real need.

YOUR SETUP BUDGET

Available setup budget	Amount kept in reserve
\$ _____	\$ _____
Total planned purchases	Budget remaining
\$ _____	\$ _____

This is a planning resource, not an approval to open. Confirm the facility, fire, accessibility, privacy, insurance, payment and local requirements that apply to your business.
