01

Role scope

Train only the work assigned to this hire.

SCOPE RULE

A role is trained only when it is in scope for this employee. All other roles are ruled through as NOT ASSIGNED. Nothing is added "just in case" unless the named authority adds it in writing.

WRITTEN SCOPE ADDITIONS / RESTRICTIONS _____

AUTHORITY NAME _____ DATE _____

Rule through every role that is not assigned. A blank role is not authority.

02

Operational orientation

The house controls a shift before it teaches task execution.

This plate records operating orientation only. Employment policies, payroll, benefits, and other HR administration belong in the Employment Control Register or other approved employment materials.

ORIENTATION CONTROL	TRAINER	EMPLOYEE	DATE
Supervisor identified and escalation route explained			
Schedule / shift contact identified			
Customer and payment-data confidentiality explained			
Facility layout and restricted areas reviewed			
Emergency contacts and emergency-service route identified			
Current SOP location identified and accessible without asking			

ORIENTATION IS NOT AUTHORIZATION

Completing orientation does not authorize customer release, field response, opening lead, closing lead, or any other role. Those permissions are granted only after the required module verification and Solo Authorization plate are complete.

03

SOP acknowledgment

Receipt of the operating reference - not permission to work alone.

CONTROLLED ACKNOWLEDGMENT

The employee acknowledges access to the current SOP edition assigned to the role. The acknowledgment records receipt and operating expectations. It does not grant solo authorization.

01

I have access to the current Standard Operating Procedures applicable to my assigned role.

02

I will follow assigned written procedures and use the controlled documents identified by those procedures.

03

I will not invent an exception, promise an outcome, or act beyond the authority granted to my role.

04

I will escalate when the SOP, policy, or situation requires management or emergency involvement.

05

I understand that receiving or reading the SOP does not authorize me to perform a role independently.

STATUS ☐ READY ☐ MORE PRACTICE ☐ NOT AUTHORIZED

DATE _____ **TRAINER** _____ **VERIFIER INITIALS** _____

MODULE NOTE Nothing remains open for the next day without a named owner and documented status.

A checked stage records completion of that stage only. Solo authority is granted separately on the Solo Authorization plate.

09

Module verification - field response

This module exists only when the role scope includes field authority.

Field response

MODULE VERIFICATION PLATE

TRAINING REFERENCE SOP: Risk classification; four-step field response; law enforcement; mechanical interruption.

☐ EXPLAINED ☐ DEMONSTRATED ☐ PRACTICED ☐ OBSERVED INDEPENDENT ☐ VERIFIED

STATUS ☐ READY ☐ MORE PRACTICE ☐ NOT AUTHORIZED

DATE _____ **TRAINER** _____ **VERIFIER INITIALS** _____

MODULE NOTE Train this module only when Field Response is in scope. Confirm asset and active rental before enforcement; disengage when risk requires it.

A checked stage records completion of that stage only. Solo authority is granted separately on the Solo Authorization plate.

SCOPE PROTECTION

If Field Response is not assigned, rule through the role on the Role Scope plate and mark this module NOT AUTHORIZED. Exposure to field situations does not create field authority.

11

Solo authorization

Independent work exists only where authority is expressly granted.

AUTHORIZATION RULE

Receipt of the SOP, completion of orientation, or module verification does not by itself authorize independent work. Solo authorization is role-specific and may be restricted or retracted.

EMPLOYEE FILE

This Training Record is filed in the employee family under the Office Standard. Training evidence, role authorization, and retraining history remain with the employee record.

CONTROL	STANDARD
PRIMARY FILE	Employee family / controlled personnel file under the Office Standard.
CUSTOMER FILES	Do not store this record with customer rentals, agreements, incident files, or transaction packets.
FLOOR AUTHORITY COPY	A controlled copy of the current Solo Authorization plate may be held by the opening lead so the floor can confirm who may release a key or act independently.
SUPERSEDED AUTHORITY	When solo authority changes, replace the floor copy promptly and retain the superseded record according to the Office Standard.
RECORD OWNERSHIP	The named authority is responsible for ensuring that training scope, verification, restrictions, and current solo authorization are legible and current.
