01

Prior-year actuals

This is a decision input, not a second accounting system. Record only what the house actually tracks.

REVENUE / SALES MEASURE

CASH / LIQUIDITY MEASURE

UTILIZATION / CAPACITY MEASURE

DOWNTIME MEASURE

DECLINED DEMAND / UNMET DEMAND

OWNER LOAD / MANAGEMENT CAPACITY

INCIDENTS / MATERIAL DISRUPTIONS

OTHER HOUSE-TRACKED MEASURE

CONTEXT / SOURCE NOTE

LIMITS IDENTIFIED

Record the constraints that are actually limiting this cycle. Use evidence; do not turn assumptions into limits.

Professional review log

Record the control event: what was sent out, to whom, when, and what the business did with the outcome.

REVIEW LOG

MATTER / INITIATIVE	SENT TO	DATE	OUTCOME / GUIDANCE RECEIVED	NEXT ACTION

USE OF THIS LOG

This page records the fact and operational outcome of professional review. The house should file any supporting work product in the location it normally uses for that subject.

06

Record control

This file belongs to operations / owner control. It is not a customer drawer, a fleet unit record, or an accounting ledger.

RECORD	PRIMARY LOCATION	CONTROL RULE
Growth Control Record	Operations / owner file	Cycle actuals, limits, initiative plates, annual decision, professional review log.
Fleet Unit Record	Fleet / operations file	Unit readiness, holds, preventive cadence, OOS and RTS history.
Forecasting / Plan, if used	Finance / planning file	Detailed numbers, assumptions, model, projections and financial comparisons.
Customer records	Customer rental file	Rental-specific execution documents only; this Growth Control Record does not live there.

100% CONTROL TEST

QUESTION	WHERE THE ANSWER MUST LIVE
Are we expanding tomorrow?	Annual decision + supporting evidence
Did this idea pass the opportunity test?	Initiative plate
Who decided to pause it?	Status + named authority / decision date
Can the existing fleet support it?	Fleet Record + limits identified
What does it cost?	Initiative plate + Forecasting, if used

RECORD RULES

- A blank status is not Active. Each open initiative carries one current status.
- A pause, stop, expansion, or annual direction must identify the authority and date.
- This Record may cite other controlled files; it does not duplicate them.
- Detailed accounting and forecasting remain in their own systems when the house uses them.

CLOSING NOTICE

Experience-based internal growth control resource. Adapt it to the business, the market, the activity, and the professionals involved. This record organizes decisions; it does not create legal, financial, tax, employment, insurance, valuation, investment, or lending advice.
