

OFFICE OPERATIONS REGISTER

*Evidence of the standard.
Completed before the house opens.*

PRIVATE OPERATIONS REGISTER

CONTROLLED DOCUMENT

CLASSIFICATION	PRIVATE OPERATIONAL RESOURCE
EDITION	01 / 2026
APPLICATION	IMPLEMENTATION AND OPENING READINESS
AUTHORITY	THE WE METHOD
COMPANION TO	OFFICE OPERATIONS STANDARD

FUNCTION FIRST. CONTROL ALWAYS. LEGACY BY DESIGN.

00

Document control

A working register for owners and operating leaders responsible for the facility.

AUTHORITY AND USE

FIELD	CONTROLLED DEFINITION
Purpose	Record whether each required control of the Office Operations Standard is in place at this location.
Scope	Records, technology, payments, workplace, security, keys, fleet files, inventory, safety, people, capital, opening.
Audience	Owner, operating leader, location manager. Not for public circulation.
Marking	Initial = in place. Ruled line = does not apply. Empty box = still required.
Status	Private. Controlled. Retained with the house file.

OPERATING RULE

This register is evidence, not a substitute for law, the lease, insurance, or qualified advice. Local requirements remain controlling.

RECORDED BY

DATE

03

Records and information governance

Secure, retrievable, and visible only to those named.

Initial the box when the control is in place. Rule a line through anything that does not apply to this location.

REQUIRED STANDARD

CONTROL	REQUIRED STANDARD	
Physical storage	Active customer, business, and employee files in lockable cabinets or equivalent.	☐
Separation	Employee records held apart from customer, fleet, and daily operating files.	☐
Digital protection	Approved storage, strong passwords, multi-factor, device locks, encrypted backup.	☐
Retention	Written schedule: what is kept, for how long, under whose authority it is destroyed.	☐
Document flow	Agreements, inspections, incidents, damage, and warnings filed promptly and consistently.	☐
Payment data	Card data never stored improperly. Screens and papers invisible from the counter.	☐

FILING ARCHITECTURE

CUSTOMER

Active and completed rentals.
Identification when retained.
Agreements, waivers, inspections,
damage, incidents, warnings,
terminations.

BUSINESS

Registration, licences, insurance,
vendors, tax, bank, facility. Retention
and destruction records. Held apart
from staff files.

FLEET

Purchase, VIN or serial, insurance,
warranty, manuals, maintenance,
repair, damage, out of service,
replacement.

RECORDED BY

DATE

04

Technology, reservations and payments

An operating stack: secure, compatible, supportable, and the right size.

Initial the box when the control is in place. Rule a line through anything that does not apply to this location.

ACCESS

Individual accounts. Strong authentication. Restricted administrator rights.

CONTINUITY

Reliable internet. Approved backup path. Protected power. Tested restoration.

TRANSACTIONS

Reservation and payment systems configured, integrated, and tested.

OPERATING CONTROLS

SYSTEM	MINIMUM CONFIGURATION	
Core device	Business computer, laptop or tablet. Screen lock. Updates. Approved software. Surge or UPS.	☐
Connectivity	Business router. Protected Wi-Fi. Guest network held apart. Backup internet if continuity requires it.	☐
Print and scan	Reliable black-and-white printer. Scanning. Toner and paper. Secure handling of output.	☐
Reservation	Platform configured for fleet, durations, taxes, documents, emails, and staff access.	☐
Payment	Right-sized approved device. Fees, offline limits, receipts, and compatibility understood.	☐
Backup	Secure cloud or equivalent. Protected credentials. Documented recovery. Restoration tested.	☐

PURCHASE DECISION

TEST	CONFIRM BEFORE COMMITTING CAPITAL	
Compatibility	Devices, accessories, printers, software, and required subscriptions.	☐
True cost	Price, processing fees, recurring cost, internet, warranty, return policy.	☐
Right sizing	The configuration the workflow requires - not every device in the catalogue.	☐

RECORDED BY

DATE

05

Workplace and client experience

Order, discretion, and readiness before decoration.

Initial the box when the control is in place. Rule a line through anything that does not apply to this location.

ZONE	OPERATING STANDARD	
Client reception	Clear arrival. Accurate information. Clean counter. Circulation. Screens turned inward.	☐
Controlled back office	Records, payment devices, keys, and frequent supplies secured and organized.	☐
Employee workstation	Schedules, assignments, procedures, and reporting without exposing private information.	☐
Supply system	Office and printing supplies standardized, replenished deliberately, stored by frequency of use.	☐

CLIENT-FACING INFORMATION

MUST BE CLEAR

Hours. Current rates. Essential rules. Emergency contact. Authorized-use guidance.

MAY STRENGTHEN TRUST

Current public licences. Reservation mark. Local information. Professional brochures.

MUST REMAIN PRIVATE

Customer and staff records. Payment data. Credentials. Incident files. Confidential screens.

DESIGN PRINCIPLE

Select furniture and finishes for durability, function, accessibility, and the actual space. The office looks intentional because the operation is intentional.

RECORDED BY

DATE

06

Physical security and key control

At close, every key is accounted for. No discrepancy is treated as routine.

Initial the box when the control is in place. Rule a line through anything that does not apply to this location.

CONTROL	REQUIRED STANDARD	
Perimeter	Entrance alert, exterior light, approved surveillance and notices, alarm where the risk supports it.	☐
Controlled storage	Documents, cash, devices, duplicate keys, chemicals, and restricted inventory locked.	☐
Access discipline	Named people only. Individual credentials. Former access removed. Administrator rights restricted.	☐
Closing control	Written close covering doors, keys, cash, devices, confidential material, and active risk.	☐
Identify	Each cart and each key uniquely numbered. Duplicates recorded. Spares secured.	☐
Release and recover	Who may release a key, for which cart, under what transaction. Immediate escalation if it does not return.	☐

EVENING COUNT

DATE	RECORDED BY
EXPECTED COUNT	ACTUAL COUNT
EXCEPTION - CART / KEY / ACTION	
VERIFIED BY	CLOSE ACCEPTED
RECORDED BY	DATE

07

Signage, fleet records and inventory

Current, approved, and aligned with the way the operation actually works.

Initial the box when the control is in place. Rule a line through anything that does not apply to this location.

DOMAIN	REQUIRED STANDARD	
External signage	Landlord and local approval. Permit and electrical review. Safe installation. Accurate hours and contact.	☐
Visibility	Road, entrance, parking, pickup and return are readable. Weather and traffic considered.	☐
Fleet file	Number, model, year, VIN or serial. Purchase, warranty, insurance, manuals.	☐
Fleet history	Inspection, maintenance, repair, damage, out of service, return to service, replacement planning.	☐
Operational inventory	Numbered labels. Ready / out of service tags. Logs, clipboards, lamp, batteries, basic tools.	☐

PUBLIC DISPLAY CONTROL

REVIEW	REQUIRED OUTCOME	
Authorized?	Landlord, municipality, property rules, and installation requirements reviewed as applicable.	☐
Accurate?	Hours, rates, rules, permits, directions, and contact match the current operating systems.	☐
Safe?	Display does not obstruct traffic, required notices, exits, accessibility, or movement.	☐
Appropriate?	No private information exposed. The display supports a clear professional arrival.	☐

ASSET LANGUAGE

One status vocabulary across labels, logs, systems, and the team. An asset cannot be both available and out of service.

DATE

08-09

Continuity, safety and people

Routines that do not rely on memory. Equipment verified for this facility.

Initial the box when the control is in place. Rule a line through anything that does not apply to this location.

MAINTENANCE

Waste, approved cleaning, restroom, gloves, wet-floor control, chemicals held away from the guest.

SAFETY

Correct first aid, fire protection, alarms, lighting, spill supplies, contacts, evacuation, incident forms.

CONTINUITY

Power, connectivity, backups, restoration tested, lost-device and weather procedures written.

VERIFICATION CADENCE

CADENCE	MANAGEMENT FOCUS	
Daily	Condition, waste, counter, keys, devices, hazards, closing exceptions.	☐
Weekly	Supplies, cleaning equipment, fleet status materials, unresolved repairs, restricted storage.	☐
Monthly	Backups, access lists, emergency contacts, document flow, signage, vendor services.	☐
Scheduled	First aid, extinguishers, alarms, permits, licences, insurance, manufacturer service.	☐
Event-driven	Incidents, damage, lost keys or devices, departure, system failure, material change.	☐

DAILY DISCIPLINE

ROLE	REQUIRED DISCIPLINE	
Opening lead	Facility, systems, rates, rules, equipment, and active exceptions verified before the first guest.	☐
Service team	Approved accounts and procedures. Private information protected.	☐
Fleet / maintenance	Logs and status language updated before availability changes.	☐
Closing lead	Keys, documents, cash, devices, hazards, and unresolved issues confirmed.	☐
Operations leader	Evidence reviewed. Actions assigned. Obsolete access removed.	☐

CAPITAL DISCIPLINE

A simple office with secure records, clear procedures, functional technology, and organized responsibilities can outperform an expensive office without systems.

RECORDED BY _____

DATE _____

11

Opening readiness and executive decision

A date on the calendar is not evidence. Opening is an executive decision.

Initial the box when the control is in place. Rule a line through anything that does not apply to this location.

SIX READINESS GATES

GATE	READY WHEN	
Records and privacy	Customer documents locked. Staff files apart. Confidential information protected. Filing active.	☐
Technology and continuity	Internet holds. Devices and printing operate. Individual access assigned. Restoration tested.	☐
Reservations and payments	Systems configured, integrated as required, proven through successful test transactions.	☐
Physical security and keys	Keys numbered and controlled. Restricted items secured. Close written.	☐
Client environment	Rates and rules accurate. Signage approved. Required permits present. Counter ready.	☐
Safety and discipline	Emergency equipment in place. Responsibilities assigned. Current procedures reachable.	☐

EXECUTIVE DECISION

DECISION	MEANING	
Approved for opening	Every essential gate is satisfied. No known issue creates unacceptable exposure.	☐
Approved with actions	Minor items remain. Each has an owner and a date. Remaining risk is understood.	☐
Hold	An essential control is incomplete, a material test failed, or uncertainty requires delay.	☐

ACTIONS REMAINING
